

Electronic Arts

You are a Product Analyst on the EA Desktop team investigating user game library engagement patterns....

Question 1: How many users have no games installed in their library during the third quarter of 2024? Use the dim_users table and filter for users where has_game_installed is 0 and the library_last_updated date is between July and September 2024. This helps identify users that can be targeted for increased engagement.

```
SELECT
    COUNT(*) AS users_with_no_games
FROM dim_users
WHERE has_game_installed = 0
    AND library_last_updated >= '2024-07-01'
    AND library_last_updated < '2024-10-01';
```

Question 2: Which 5 games had the highest number of installs during the third quarter of 2024? This helps reveal the most popular games among users.

```
SELECT
    game_id,
    COUNT(*) AS install_count
FROM fct_user_game_activity
WHERE install_date >= '2024-07-01'
    AND install_date < '2024-10-01'
GROUP BY game_id
ORDER BY install_count DESC
LIMIT 5;
```

Question 3: How many users, whose libraries were last updated between July and September 2024, have 3 or more games installed in their library?

```
SELECT
    COUNT(*) AS users_with_3_or_more_games
FROM dim_users
WHERE library_last_updated >= '2024-07-01'
    AND library_last_updated < '2024-10-01'
    AND installed_games_count >= 3;
```
