You are a Data Analyst on the Walmart Pharmacy team tasked with evaluating patient consultation privacy concerns....

Question 1: What are the names of the 3 pharmacies that conducted the fewest number of consultations in July 2024? This will help us identify locations with potentially less crowded consultation spaces.

```
SELECT pharmacy_name, COUNT(consultation_id) AS consultations
FROM fct_consultations
WHERE consultation_date BETWEEN '2024-07-01' AND '2024-07-31'
GROUP BY pharmacy_name
ORDER BY consultations ASC LIMIT 3;
```

Question 2: For the pharmacies identified in the previous question (ie. the 3 pharmacies with a fewest consultations in July 2024), what is the uppercase version of the consultation room types available? Understanding the room types can provide insights into the privacy features offered.

```
SELECT DISTINCT(UPPER(consultation_room_type)) AS consultation_room_type
FROM fct_consultations
WHERE pharmacy_name IN
(SELECT pharmacy_name
FROM fct_consultations
WHERE consultation_date BETWEEN '2024-07-01' AND '2024-07-31'
GROUP BY pharmacy_name
ORDER BY COUNT(consultation_id) ASC LIMIT 3)
AND consultation_date BETWEEN '2024-07-01' AND '2024-07-31';
```

Question 3: So far, we have identified the 3 pharmacies with a fewest consultations in July 2024. Among these 3 pharmacies, what is the minimum privacy level score for each consultation room type in July 2024?

```
WITH lowest_pharmacies AS (  
    SELECT pharmacy_name  
    FROM fct_consultations  
    WHERE consultation_date BETWEEN '2024-07-01' AND '2024-07-31'  
    GROUP BY pharmacy_name  
    ORDER BY COUNT(consultation_id) ASC  
    LIMIT 3  
)  
SELECT  
    consultation_room_type,  
    MIN(privacy_level_score) AS min_privacy_level_score  
FROM fct_consultations  
WHERE pharmacy_name IN (  
    SELECT pharmacy_name  
    FROM lowest_pharmacies  
)  
AND consultation_date BETWEEN '2024-07-01' AND '2024-07-31'  
GROUP BY consultation_room_type  
ORDER BY consultation_room_type;
```
