You are a Product Analyst on the LinkedIn Messaging team focused on understanding user engagement with messaging features....

Question 1: What is the total number of messages sent during April 2024? This information will help us quantify overall engagement as a baseline for targeted product enhancements.

```
SELECT COUNT(*) AS total_messages
FROM fct_messages
WHERE message_sent_date >= '2024-04-01'
      AND message_sent_date < '2024-05-01';
```

Question 2: What is the average number of messages sent per user during April 2024? Round your result to the nearest whole number. This metric provides insight into individual engagement levels for refining our communication features.

```
SELECT ROUND(AVG(message_count)) AS avg_messages_per_user
FROM (
  SELECT user_id, COUNT(*) AS message_count
  FROM fct_messages
  WHERE message_sent_date >= '2024-04-01'
    AND message_sent_date < '2024-05-01'
  GROUP BY user_id
) AS user_messages;
```

Question 3: What percentage of users sent more than 50 messages during April 2024? This calculation will help identify highly engaged users and support recommendations for enhancing messaging interactions.

```
SELECT ROUND(  
    100.0 * SUM(CASE WHEN message_count > 50 THEN 1 ELSE 0 END)  
    / COUNT(*)  
) AS percentage_users  
FROM (  
    SELECT user_id, COUNT(*) AS message_count  
    FROM fct_messages  
    WHERE message_sent_date >= '2024-04-01'  
        AND message_sent_date < '2024-05-01'  
    GROUP BY user_id  
) AS user_messages;
```
